INTRODUCTION

This report is a compilation of data collected from Montana public libraries for the fiscal year July 1, 1988 - June 30, 1989. Included are statistics reported by the libraries as well as selected per-capita computations.

The 83 main public libraries in the state have been assigned to one of seven groups based on the size of the city population. The parameters of each group, (0-499; 500-899; 900-1599; 1600-2499; 2500-4999; 5000-12999; 13000-79000), are an attempt to organize libraries into the most homogeneous groups possible for purposes of comparison. The parameters were not based on legal service areas, but on size of the communities served, because community size comes closer to reflecting actual numbers of persons served.

The Montana State Library based questions asked of libraries on those designed for the Federal/State Cooperative System (FSCS). FSCS, part of the U.S. Department of Education, is developing and compiling standardized national public library statistics. Nearly all states are participating in this process. Within the next few years, FSCS organizers expect all 50 states to be involved.

Except in cases where data supplied were illogical or when there appeared to be a typographical error, the data presented in this publication are as reported by the participating libraries. A few libraries did not return their statistical report forms; others returned them with very little information supplied. However, because the majority of libraries contributed to the project, this report will be of use to those working on budgets or researching specific library-related topics.

Included at the end of the statistics report is a copy of the report form used by the libraries as well as the instructions for completing the form. Questions that arise while using this report might be answered by referral to the report form or instructions.

Comments and questions are welcome concerning the design of the form and/or the wording of the questions.

PLEASE NOTE THE FOLLOWING BEFORE USING THIS REPORT:

- Public libraries receive support from various sources. The columns headed "Service Area" indicate the population of the area which the library is legally bound to serve. In many cases, this number does not accurately reflect the actual numbers served on a day-to-day basis. In some cases, libraries supported by county funds are bound to serve the whole county, but in reality, the library is used only by inhabitants of the limited area surrounding the library. Therefore, this report also includes columns headed "Pop. Area." Population area is the population of the city, town or area (taken from 1988 U.S. Dept. of Commerce reports) which reflects the size of the pool of persons from which actual library users come. **Columns indicating "Percent registered" and "Per capita income" are based on population of service area.**
- On Table II - "Staff Information *," the heading "ALA Masters" indicates numbers of librarians with master's degrees from American Library Association (ALA)-accredited programs. "Other Master's Degree" indicates number of librarians with master's degrees in any other subject.
- Coal Severance Tax (CST) income was not included in the income figures for the libraries because many were unable to indicate the amount of CST revenue they received. CST funds are distributed through the Montana State Library to federation headquarter libraries, which in turn distribute revenue to the libraries in their federations.
- Public service hours per week indicated in Table VII include the hours of library branches. For example, if Library A is open from 8 to 5, Monday through Friday, and its branch is open from 12 to 7, Monday through Friday, Library A would report 50 total public service hours. It would count its own total of 40, plus the hours that its branch is open when Library A is closed, 10, for a total of 50. If Library B is open from 8 to 5, Monday through Friday, and its branch is open from 8 to 5, Monday through Friday, Library B would report 40 total public service hours.
- Data totals for libraries with branches include branch information because most libraries do not keep separate statistics for their branches.

APPENDIX

INSTRUCTIONS FOR COMPLETING STATISTICAL REPORT FORM FY 1988/89

Part I GENERAL INFORMATION

1. **POPULATION OF LEGAL SERVICE AREA** - The population of the geographical area for which a public library has been established to offer services and on behalf of which the library derives income.
2. **CITY POPULATION** - The population of the libraries city or town.
3. **REGISTERED INDIVIDUAL BORROWERS** - A registered borrower is a library user who has received an identification number or card which establishes the conditions under which the user may borrow materials. **Do not report this figure unless files are purged at least every three years.** If the library has family registration instead of individual, please indicate number followed by the word, "family" in parentheses. Example: 250 (family)
4. **BRANCH LIBRARIES** - Branch libraries, for the purposes of this survey, are auxiliary units which have all of the following: 1. Separate quarters 2. A permanent collection 3. A permanent staff 4. A regular schedule for opening to the public. They are administered from a central unit.
5. **UNSTAFFED BOOK STATIONS OR DEPOSITORIES** - Include nursing homes, jails, stores, etc.
6. Self Explanatory

Part II LIBRARY STAFF

INDICATE FULL TIME EQUIVALENTS (F.T.E.). TO COMPUTE F.T.E., TAKE NUMBER OF HOURS WORKED BY EMPLOYEES IN EACH CATEGORY AND DIVIDE BY 40. EXAMPLE: IN QUESTION 7, IF YOUR LIBRARY EMPLOYS ONE PERSON WITH AN MLS FOR 10 HOUR A WEEK AND ONE OTHER PERSON WITH AN MLS FOR 34 HOURS A WEEK, THE ENTRY FOR QUESTION 7 WOULD BE 1.1 OR $10 + 34$ DIVIDED BY 40.

7. - 10. These questions are required for the national ALA statistical survey.

Part III LIBRARY INCOME
